

WaveRunner 2019

www.yamaha-motor.eu/uk

RUSH

Sun, sea and exhilaration. Just add Water.

People who love the excitement of being on the water - enjoying the exhilaration of riding a thoroughbred sports machine - or cruising gently in the quiet waters where nature can be seen at its very best - will find their own special moments aboard a WaveRunner. Because put simply, it's made for water.

As a magical passport to the pleasures you can enjoy on the water with family and friends, it really cannot be matched. Just like its global reputation for smooth, quiet, powerful performance and ultimate dependability.

The satisfaction of pure adventure. The lure of the water. The challenge and fun of riding a genuine WaveRunner. You'll discover them all - and more - in these pages.

To explore the excitement, visit www.yamaha-motor.eu/uk

The Yamaha Difference

To feel it is to want it

No other watercraft can give you that very special 'WaveRunner feeling' Why? Because it's taken years of development and dedication to technical innovation to create it – and to deliver our remarkable line-up of class-leading models. Every detail of technology and styling makes you feel at one with your machine and in harmony with the water. It's what makes the WaveRunner riding experience so utterly different – and so completely unique.

Power on the water

A smooth, quiet, economical Yamaha engine is the high-performance heart of your WaveRunner. Made exclusively for the water from the very beginning, it's bred to perform faultlessly in this hugely demanding environment, employing the very latest marine technologies – all harnessed for your pleasure and enjoyment.

Innovation is our art

Yamaha is renowned in the watercraft industry for pioneering many world-first advances, and our technical innovations are simply breathtaking. From the latest cutting-edge TR-1 engines to the revolutionary and exclusive RiDE® system, with its intuitive control. From the convenience of electronic trim to the super-light, super-tough NanoXcel2 hull material. At Yamaha, innovation is an art in itself.

RiDE - it's a revolution

A new level of confidence for every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. It's really that simple!

Yamaha Connex

The industry first colour touch-screen delivers clear concise information and lets you interact with your machine and control it, in helpful and practical ways.

NanoXcel - light and strong

NanoXcel® hulls and decks are lightweight, tough and smooth, thanks to patented nanotechnology that creates incredibly strong intermolecular bonding and results in a 25% weight saving over conventional materials.

NanoXcel 2 - Even lighter and stronger

NanoXcel2® is 18% lighter than the original NanoXcel® - yet just as rigid and strong. For example, it shaves 21Kg/46lbs off the hull of the FX Cruiser SVHO for faster acceleration, higher top speed and greater economy.

Lightweight TR-1 engine

This 3-cylinder 1049cc unit delivers 13% more power than our original MR-1 engine and is an amazing 40% smaller and 20% lighter - for higher top speeds and faster acceleration. Powers all EX models. A special High Output version powers the VX Cruiser, VX DeLuxe and new EXR.

High Output (HO) 1812cc engine

This fuel-efficient, environment-friendly 1812cc DOHC Yamaha marine engine is the largest displacement unit ever in a production watercraft and renowned for its supreme performance and reliability. Powers the VXR, VX Cruiser HO and FX HO models.

Super Vortex HO engine

The outstanding supercharged SVHO version of the 1812cc engine in our top models is just as smooth and reliable, but delivers 20% more power! Discover it in all the FX SVHO models and the GP1800R.

Super Vortex High Output jet pump

Specially designed to optimise the amazing performance of the SVHO engine, the Super Vortex High Output jet pump converts its incredible raw power into instant traction on the water.

The Yamaha Difference

Remote security

A click on the remote transmitter button engages Low RPM mode for controlled manoeuvring. For security and peace of mind, a second button disables the ignition, preventing accidental start-up – or unauthorised joyrides.

Comfortable riding starts here

Whatever type of water or riding style is your favourite, we've got a seat to suit you. From luxurious, theatre-style cruiser seats to grippy, sport-bolstered designs, comfort is guaranteed for you and your passengers.

Electronic throttle control

This unique system has 'intelligent' features – Cruise-Assist to set and maintain speeds, No Wake Mode to help navigate easily through low speed areas – and Reverse Traction Control to prevent over-revving in reverse.

Electric trim - so easy!

The remarkable electronic trim system, with its 2 simple buttons by the left grip, offers complete control, on-the-fly. Just click in the trim as you pull a tight turn - and then trim out to blast away at top speed.

Adjustable steering

An advantage that helps fine-tune the machine to your own style of riding. Some models have telescopic adjustment – others have a special 4-step, tilt-adjustable system, adding to the luxury of the WaveRunner experience.

Storage

Practical, thoughtfully designed storage space is appreciated by WaveRunner riders, so you'll find spacious, water-resistant compartments on most models. Perfect for those snacks, cool drinks, tow ropes – and sunglasses.

Clear, modern instrumentation

Easy-to-read data is a priority for relaxed riding and a WaveRunner has the best and most stylish you'll ever see, along with conveniently placed function controls. Comprehensive warning systems keep you informed, too.

Focus on the stern

For watersports enthusiasts, every detail is considered, particularly at the spacious stern, where firm, wide steps, Hydro-Turf® slip-resistant mats and helpful, well positioned handles make re-boarding simplicity itself.

Introducing the new Yamaha FX

Innovation is at the heart of Yamaha; pushing boundaries to create exciting, revolutionary products for customers and competitors around the world. This all new Yamaha flagship model is right at the forefront of the industry with cutting edge technology never seen before on a personal watercraft.

Yamaha Connex

On your first acquaintance, you may find that many of these stunning new technical features remind you of the sort of advanced facilities you would expect in a modern car. Take the industry-first CONNEXT colour touch-screen for instance. It delivers clear concise information and lets you interact with your machine and control it, in a really practical and helpful way.

Watertight Glove Box

The FX offers a generous new level of storage, some of it watertight - like the extra large glovebox and integral removable canister for small personal items - that has been thoughtfully incorporated in these new FX models.

Luxury Features

A watercraft of this luxurious standard must be easy to get on and off when you're enjoying swimming and water sports. So the stern of the latest FX now has a softer, wider and deeper reboarding step and dual grab handles. Not to mention the ingenious footwell drainage system.

New Hull & Deck Design

It all starts with the new aerodynamic styling of the gunwale, which fully reflects the much-admired heritage of the FX but gives it a fresh modern, look. Appearance though, is only a small part of this story; driving these latest machines is now a whole new and rewarding experience.

Redesigned, ergonomic seating.

The FX features a new ergonomically design helm seat; sculpted to support the rider in a comfortable, secure position. Combined with the adjustable handle-bars, you can customise the FX to your ideal riding style. The FX Cruiser models feature a further enhanced theater style seat providing individual raised seating for three riders.

Your supercharged passport - to Express Cruising

FX Cruiser SVHO®

The all-round capability of our completely re-designed flagship WaveRunner is remarkable. It's a comfortable long-distance express cruiser loaded with practical innovations, plus theatre-style seating for three - but open the throttle and it's a potent sports machine ready for extreme action.

The supercharged SVHO engine, sleek new body shape - and the hull design in lightweight NanoXcel2® - deliver awesome performance with stable, agile handling, helped by our revolutionary RiDE® control system.

All-electronic control systems with Cruise-Assist, 3-position No-Wake Mode, electronic reverse, TDE (Thrust Directional Enhancement Control) - the feature list just goes on and on.

Carbon Metallic with Torch Red

Azure Blue Metallic with Pure White

Supercharged 1812cc engine

This amazing SVHO (Super Vortex High Output) engine produces smooth, flexible power and features highly efficient cooling and air intake systems as well as strong engine internals. The large Hyper-Flow jet pump helps turn that power into electrifying acceleration - and the Electronic Fuel Injection (EFI) gives smooth and efficient power output.

Completely new shape with hull design in NanoXcel2®

The hull of this latest FX model is crafted in Yamaha's unique NanoXcel2 material. Impressively light, yet rigid and strong. So combined with the sleek new aerodynamic body shape, the result is awesome on-water performance - stunning acceleration, higher top speed, greater economy - and an even more comfortable ride.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider ... at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or to reverse. Yes, it's really that simple!

Industry 1st colour touch-screen display

Clear display of F-N-R, speed, trim and RiDE® system status, with diagnostic information and control of all the electronic systems, are features of this stylish new, industry-first, 4.3-inch colour touch-screen. CONNEXT is also fully customisable - from screen colour and layout to choice of the function being controlled or displayed.

A new design to
supercharge all your
adventures

FX SVHO®

Bring a smile to your face by riding this machine in an aggressive, wave-conquering style – or explore its more relaxing personality, when it becomes the smoothest, most powerful 3-seat touring machine you could wish for, ready to deliver great adventures in luxury and comfort.

The supercharged SVHO engine and lightweight NanoXcel®2 hull and body are a perfect double act - impressive power coupled with stable, agile handling and a comfortable ride.

It's cutting-edge technology and innovation all the way in this feature-packed new design, with our revolutionary and intuitive RiDE control system, electronic Trim and Reverse, Cruise-Assist and remote-control security system.

Pure White with Torch Red Metallic

Supercharged 1812cc engine

This amazing SVHO (Super Vortex High Output) engine produces smooth, flexible power and features highly efficient cooling and air intake systems as well as strong engine internals. The large Hyper-Flow jet pump helps turn that power into electrifying acceleration - and the Electronic Fuel Injection (EFI) gives smooth and efficient power output.

Completely new shape & hull design in NanoXcel2®

The sleek new aerodynamic body shape and hull design for the latest FX models is crafted in Yamaha's unique NanoXcel2 material. Impressively light, yet rigid and strong, it gives these machines awesome on-water performance with stunning acceleration, higher top speed, greater economy - and an even more comfortable ride.

New: Accessory system and easier re-boarding

From 4-step, tilt-adjustable steering to a luxury 3-person cruiser seat – and from pull-up cleats to a large swim platform with a deeper, wider step and dual handles for re-boarding – this FX Cruiser has it all.

Electronic drive control - a riding revolution

Yamaha's sophisticated Electronic Drive Control system will delight you with its 'intelligent' features. Use Cruise-Assist to set and maintain exact speeds, the new 3-position No Wake Mode to navigate easily through low-speed areas and Electronic Reverse with Traction Control to manoeuvre smoothly and get out of tight spots.

This new FX will stretch your cruising horizons

FX Cruiser® High Output

The re-designed FX Cruiser HO offers you another leap in luxury and performance – with improvements to make your days on the water more relaxed and enjoyable.

Feel the power of the 1812cc HO engine and explore the agile handling of the new hull design, the intuitive control offered by the revolutionary RiDE® system - and the sure-footed handling of the lightweight NanoXcel® hull.

The discovery continues with remarkable electronic throttle and trim systems, Reverse Traction Control, remote security and a host of other new features – newly extended stern platform, adjustable steering, 3-person Cruiser seat, pull-up cleats - in short, a whole new world of cruising pleasure.

Carbon Metallic with Blue

Powerful High Output 1812cc engine

Power delivery from the large displacement, High Output 1812cc engine is exhilarating – and the Hyper-Flow jet pump with its 3-blade impeller helps turn that power into electrifying acceleration. The Electronic Fuel Injection (EFI) gives the smoothest possible power output and efficient, economical running, even on regular unleaded fuel.

Completely new shape & hull design in NanoXcel®

The sleek new aerodynamic body shape and hull design for the latest FX models is crafted in Yamaha's unique NanoXcel material. Impressively light, yet rigid and strong, it gives these machines awesome on-water performance with stunning acceleration, higher top speed, greater economy - and an even more comfortable ride.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. Yes, it's really that simple!

Supreme theater style seating

This theater style seating provides secure, individually stepped seating for three people; ideal for cruising with the family and enjoying watersports - the re-design helm seat also offers the ultimate in ergonomic support and comfort when on longer voyages.

The stylish new shape
of all-round capability

FX® High Output

An ideal blend of performance and economy, with more new features designed to revolutionise riding for sports or touring – that's the new-shape FX HO.

Its remarkable 1812cc engine, with high pressure pump and intelligent electronic throttle control system, delivers powerful, economical performance. The elegant new hull shape in lightweight NanoXcel®, and the remarkable RiDE system, promise the most comfortable and stable handling you've ever experienced.

And the FX HO now has even more features - like No Wake mode and Cruise Assist, luxury seating for three, large swim platform, extra deep re-boarding step and dual handles, plenty of storage space – the story just goes on.

Pure White with Azure Blue Metallic

Powerful High Output 1812cc engine

Power delivery from the large displacement, High Output 1812cc engine is exhilarating – and the Hyper-Flow jet pump with its 3-blade impeller helps turn that power into electrifying acceleration. The Electronic Fuel Injection (EFI) gives the smoothest possible power output and efficient, economical running, even on regular unleaded fuel.

Completely new shape & hull design in NanoXcel®

The sleek new aerodynamic body shape and hull design for the latest FX models is crafted in Yamaha's unique NanoXcel material. Impressively light, yet rigid and strong, it gives these machines awesome on-water performance with stunning acceleration, higher top speed, greater economy – and an even more comfortable ride.

RiDE system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE system transforms your riding pleasure, bringing a new feeling of confidence to every rider ... at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or to reverse. Yes, it's really that simple!

Industry 1st colour touch-screen display

Clear display of F-N-R, speed, trim and RiDE® system status, with diagnostic information and control of all the electronic systems, are features of this stylish new, industry-first, 4.3-inch colour touch-screen. CONNEXT is also fully customisable - from screen colour and layout to choice of the function being controlled or displayed.

Our awesome new GP1800R - the peak of performance.

GP1800R

For years, our GP models have forged an unbeatable reputation among serious racers the world over. This magnificent heritage is clearly visible in the shape of our very latest high-performance hero, the new and improved GP 1800R.

It's the answer to every performance enthusiast's prayer - a great-looking, smooth and super-powerful machine with a strong, agile hull and a multitude of innovative features that put it in a class of its own.

But now there's even more, with a new top-loader intake grate and race designed ride plate which combine to further improve handling, cornering and rough water hook-up. So even though it's difficult to improve such a legend, we just did.

Black with Torch Red Metallic

Azure Blue with White

Supercharged Super Vortex High Output 1812cc engine

This amazing engine produces smooth, flexible power and features highly efficient cooling and air intake systems as well as strong engine internals. The 160mm Hyper-Flow jet pump helps turn that power into electrifying acceleration - and the Electronic Fuel Injection (EFI) gives ultra-smooth and efficient power output.

NanoXcel2®. Maximum strength - minimum weight

Made possible by Yamaha's unique materials technology, NanoXcel2® is an impressive 18% lighter than our revolutionary original NanoXcel® material used on VX models - yet is just as rigid and strong. So it maximises the exciting sports performance hull design of the GP1800R to deliver sensational acceleration, higher top speed and greater economy.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence, especially for sports-style riding. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. Yes, it's really that simple!

Electronic trim and clear, stylish instruments

The electronic trim system, with its 2 simple buttons by the left grip, offers complete control of trim position, on-the-fly. Just click the trim in as you pull a tight turn -and then trim out again to blast away at top speed. Clear indicators for trim, RiDE system and F-N-R positions are a feature of the stylish instruments.

Conquering
the water just
got even easier ...

VXR®

Discover the latest VXR, a potent mix of sports and cruising capability, especially designed to take advantage of our many technical advances and styled to look the part - with aggressive colours and graphics - and yet all in a package that's unbeatable value.

But now there's even more - a new race-designed top-loader intake grate and ride plate which combine to further improve handling, cornering and rough water hook-up.

Explore too, its other exciting features normally found only on premium models. Like the new NanoXcel2® hull and deck and our revolutionary RiDE® control system. A true breakthrough, it's totally intuitive - and immediately gives confidence to every rider.

Torch Red Metallic with White

High Output, 1812cc, 4-stroke, DOHC, 16V engine

The 4-cylinder DOHC 1.8 litre, High Output engine is the largest displacement in the industry, yet thanks to our continuous programme of innovation and product improvement, it is extremely compact. The result is astonishing power, acceleration and huge torque, along with clean efficiency and economy.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. Yes, it's really that simple!

New NanoXcel2® hull. Maximum strength - minimum weight

Made possible by Yamaha's unique materials technology, NanoXcel2® is an impressive 18% lighter even than our revolutionary original NanoXcel® - yet just as rigid and strong. So it maximises the exciting sports performance hull design of the VXR to deliver sensational acceleration, higher top speed and greater economy.

Wide, long hull for even better stability

The semi-V multi-chine hull is a key factor in the VXR's ability to offer a full package of supreme handling and comfort. Its width and length allow it to deliver great stability when at rest, together with the ideal balance between grip and controlled sliding in turns. The super-capable VXR - ultimate agility on the water.

Stand up to the next level of thrills

SuperJet™

Rider and legendary machine in perfect harmony. At one with each other and with the water. It's how races are won.

The impressive power and acceleration of the race-bred 2-stroke engine is combined with a sleek, ultra-light hull. Supreme agility and control is the SuperJet's trademark, with the ability to out-carve rival racers by diving deeper and turning harder into turns.

Its unique ergonomic design - with spring-assisted steering pole and handlebar - lead the rider naturally into a comfortable lean-forward position, the ideal stance for competition riding. Your SuperJet is ready and waiting. But please be aware that it is sold for closed course and competition use only.

Pure White with Blue

High-performance 2-stroke engine

The legendary SuperJet is powered by a high-performance, two-cylinder, 701cc Yamaha engine. Two 38mm Mikuni® carburetors feed this world-class power plant, for excellent throttle response throughout the RPM range. Loop-charged combustion distributes the fuel/air mixture more evenly, for better combustion, performance and fuel economy.

Lightweight, deep-strake hull with wide front section

Perfectly balanced to give ultra-tight cornering ability and to maximise its blistering straight-line speeds, the SuperJet's lightweight, deep-strake hull features moulded-in sponsons. Positioned well forward, they increase the wetted surface area, allowing you to turn easily, while giving the SuperJet great stability.

Optimised intake duct pump and ride-plate position

To increase dynamic stability and straight-line running performance within the limited space of the hull, the ride plate is positioned far aft - effectively lengthening the waterline. The pump itself is also positioned far aft, providing stable pump performance even in choppy water.

Hyper-Flow jet pump and adjustable steering nozzle

The SuperJet 144mm Hyper-Flow jet pump propulsion system is designed to maximise water flow for high performance. The SuperJet pump configuration provides excellent hook-up and smooth acceleration.

The action pictures are intended to show race conditions, so the rider is wearing a helmet.

Amazing power.
Great features.
The VX Cruiser HO.

VX Cruiser® HO

Meet the HO, our premium VX Cruiser model. A smooth, powerful engine, plus Yamaha's revolutionary RiDE control system and a host of other advantages are blended together to create this stunning example of stylish performance with economy.

While many individual technical and practical features have played their part in making the VX models our most sought-after watercraft, it is their all-round versatility that has gained them such a loyal following.

Put simply, the VX Cruiser HO is the premium watercraft in this sector - and the only one that can deliver such a highly capable and luxurious on-water cruising experience with such affordability.

Carbon Metallic

Powerful High Output 1812cc engine

Power delivery from the large displacement, High Output 1812cc engine is exhilarating – and the Hyper-Flow jet pump with its 3-blade impeller helps turn that power into electrifying acceleration. The Electronic Fuel Injection (EFI) gives the smoothest possible power output and efficient, economical running, even on regular unleaded fuel.

Special two-tone cruiser seat with dry storage

The ergonomically designed, precision-stitched, 2-piece seat is truly innovative. Perfect for sports riding and cruising with up to 3 people, its high comfort level will make you feel like it's been custom-made to fit you. What's more, there's a very handy dry storage area underneath the rear section.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. Yes, it's really that simple!

Lightweight NanoXcel® hull and deck

The hydrodynamic hull and deck are constructed from Yamaha's unique NanoXcel® – around 25% lighter than a conventional GRP – so the VX Cruiser HO offers extremely agile handling and optimum fuel efficiency. The hull and deck designs are also latest-generation, delivering space and stability, with extra storage and ride comfort.

Experience
the difference.
Go VX cruising!

VX Cruiser®

Big on comfort, performance and luxury extras, the Yamaha VX Cruiser combines substance with style thanks to the extremely reliable Yamaha TR-1 three-cylinder High Output Yamaha marine engine.

The VX Cruiser features Yamaha's signature Cruiser Seat for more comfortable one, two or three person riding, innovative dual throttle RiDE technology for easier control and Cruise Assist to make travelling over long distances that little more enjoyable. If you are looking for a value-for-money, feature rich watercraft, then the VX Cruiser delivers on all accounts.

Pure White with Carbon

TR-1 High Output 1049cc 3-cylinder engine

The VX Cruiser is powered by our innovative 3-cylinder engine, the 1049cc High Output TR-1. This remarkably compact and lightweight unit packs a real punch and offers lively acceleration and great top-end power, plus economy and reliability. The light weight of this engine also helps deliver superior handling, agility and balance.

Hull design made of light, strong NanoXcel®

Yamaha's unique NanoXcel® material is light and strong, for faster acceleration, higher top speed and greater economy. So it's perfect for the latest design VX hull and body, which offers improved stability and handling in all conditions.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. Yes, it's really that simple!

Special two-tone cruiser seat with dry storage

The ergonomically designed, precision-stitched, 2-piece seat is truly innovative. Perfect for sports riding and cruising with up to 3 people, its high comfort level will make you feel like it's been custom-made to fit you. What's more, there's a very handy dry storage area underneath the rear section.

For sheer all-round ability, this is hard to match

VX® DeLuxe

Sporty styling, great performance, exceptional economy, low maintenance and a great many features - all have played their part in making the VX models our most sought-after watercraft. But it is their all-round versatility that has gained them such a loyal following.

As well as a remarkably smooth engine and a host of other 'luxury' features as standard, the VX Deluxe offers our revolutionary RiDE control technology. This intuitive, user-friendly system introduces an immediate level of confidence to even less experienced riders.

Put simply, there is now no other watercraft which can deliver such a supremely capable and enjoyable on-water experience with such affordability.

Pure White with Black Metallic

TR-1 High Output 1049cc 3-cylinder engine

The VX Deluxe is powered by our innovative 3-cylinder engine, the 1049cc High Output TR-1. This remarkably compact and lightweight unit packs a real punch and offers lively acceleration and great top-end power, plus economy and reliability. The light weight of this engine also helps deliver superior handling, agility and balance.

HyperFlow jet pump puts the pressure on

Exhilarating handling and exciting performance are a hallmark of the VX Deluxe and its outstanding bite and acceleration are made possible by a combination of the high-flow intake, the Hyper-Flow high-pressure jet pump and the stainless steel impeller, which runs within a precision-engineered housing.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. Yes, it's really that simple!

Hull design made of light, strong NanoXcel®

Yamaha's unique NanoXcel® material is light and strong, for faster acceleration, higher top speed and greater economy. So it's perfect for the latest design VX hull and body, which offers improved stability and handling in all conditions.

The amazing
all-new EXR - faster
and even more fun

EXR

Our EX Series has been applauded around the world as a great value watercraft line, so we're now proud to introduce the even faster, even more fun-packed EXR into this exciting family.

It's a very powerful, sporty machine, yet versatile and easy to handle. High on the list of its unique features are the lightweight, agile NanoXcel 2 hull - and our revolutionary RiDE technology, the intuitive, simple-to-use control system which has already revolutionised watercraft riding for the owners of our premium models.

Despite its affordability, the DNA flowing through the veins of the EXR is pure Yamaha - technical innovation, world-beating engineering and supreme reliability.

Azure Blue with Lime Yellow

10% more power - 1049cc TR-1 HO engine

All EX Series models are powered by our innovative 3-cylinder engine, the remarkable 1049cc Yamaha TR-1, but the EXR features the latest HO (High Output) version of this compact, lightweight unit, delivering 10% more power! Result? Awesome acceleration and great top-end speed, combined with Yamaha's legendary economy and reliability.

NanoXcel2 lightweight hull and deck

For the super-sporty EXR, we've been careful to retain the great mix of user-friendly handling and balance so appreciated in the other EX models, but re-engineered the hull and deck in our very latest material - the unique lightweight, yet tough NanoXcel 2. Which makes our new EXR even faster, even more agile - and even more fun!

RiDE system (Reverse with Intuitive Deceleration Electronics)

Yamaha's revolutionary RiDE® system transforms control, bringing new confidence to riders at every level. Simply pull the lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. With the bonus of Reverse Traction Control too, it really is that simple!

Large 50 Litre fuel capacity - more time on the water

When you go blasting out to sea on the new EXR, you probably won't want to come back for a while, so we've built in a tank with a larger fuel capacity (50 Litres) than any competitive watercraft. Which means you can go a lot further - and your fun out on the water will last even longer. Thoughtful - and typically Yamaha.

EX Deluxe - the best is rarely this affordable

EX DeLuxe

Meet the innovative Yamaha EX DeLuxe - for people who want maximum reliability and sheer on-water fun, in an agile machine that's both versatile and easy to handle.

The EX Series has been designed with all the reliability and technical innovation for which Yamaha WaveRunners are legendary, but with a rare no-frills approach that delivers unprecedented affordability. So this DeLuxe model, at the top of our EX line-up, is a really feature and value-packed machine!

High on the list of its many advantages is our revolutionary Ride® technology, a simple-to-use and intuitive control system which has already transformed the riding habits of the watercraft world on our top models.

Torch Red

Powerful TR-1 engine - 3 cyl 1049cc

Despite its surprising affordability, the exciting EX DeLuxe is powered by the latest version of our innovative 3-cylinder engine, the 1049cc Yamaha TR-1. It's a compact, lightweight unit that packs real punch - with lively acceleration and great top-end power, plus the legendary economy and reliability you expect from a Yamaha.

Designed for all-round handling and performance

The smooth, quiet power, compact dimensions and light weight of the TR-1 engine, matched with the tough, durable and well-proven hull design, deliver a great mix of user-friendly handling, agility and balance. The result is maximum fun and control with minimum difficulty, even for less experienced drivers.

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms control, bringing new confidence to riders at every level. Simply pull the lever on the right hand-grip to move forward and accelerate - pull the lever on the left grip to slow down or reverse. Yes, and with the bonus of Reverse Traction Control it really is that simple!

Comfortable seating for up to 3 people

The ergonomically designed, 2-colour, precision-sewn seat, exclusive to the EX DeLuxe, is a very secure and comfortable place to be - perfect for sports riding or cruising with up to 3 people. Its high comfort level will make you feel it's been custom-made to fit you. What's more, there's a very handy dry storage area underneath it.

Meet yet another affordable Yamaha - the EX Sport.

EX Sport

The EX Sport is built to excite even the most seasoned rider. This exciting WaveRunner offers riders a more traditional sized watercraft, reminiscent of the many fun and agile models produced over Yamaha's 30-year watercraft history.

Best of all, this model is packed full of Yamaha quality, reliability and four-stroke technology to deliver the most fun and enjoyment money can buy.

By utilising the EX performance hull, matched with Yamaha's lightweight TR-1 engine, the EX Sport delivers a nimble performance and handling that brings a smile to the face of all who step on board. The ride is highly responsive and easily controlled with mechanical reverse allowing the rider to seamlessly switch from relaxed cruising to high intensity riding and manoeuvres in the blink of an eye.

Carbon Metallic with Lime Yellow

Powerful Yamaha TR-1 - 1049cc 3-cylinder engine

Despite its surprising affordability, the exciting EX Sport is powered by the latest version of our innovative 3-cylinder engine, the 1049cc Yamaha TR-1. It's a compact, lightweight unit that packs real punch, with lively acceleration and great top-end power, plus the legendary economy and reliability you expect from a Yamaha.

Designed for all-round handling and performance

The smooth, quiet power, compact dimensions and light weight of the TR-1 engine, matched with the tough, durable and well-proven hull design, deliver a great mix of user-friendly handling, agility and balance. It has a mechanical Reverse too, so it all adds up to maximum fun and control, even for less experienced drivers.

HyperFlow jet pump - all the pressure you need

Exhilarating handling and exciting performance have long been hallmarks of the Yamaha WaveRunner. The instant 'bite' on the water and acceleration are made possible by a combination of a high-flow intake, Hyper-Flow high-pressure jet pump and a stainless steel impeller, which runs within a precision-engineered housing.

Comfortable seating for up to 3 people

The ergonomically designed, precision-made seat is a very secure and comfortable place to be - perfect for sports riding or cruising with up to 3 people. The unusually high comfort level will make you feel like it's been custom-made to fit you. What's more, there's a very handy dry storage area underneath it.

Take the fun further

Yamaha's approach to our branded sports and leisure gear, toys and accessories, has always been the same. Before we allow anything to carry that name, it must prove itself every bit as well designed, tough and reliable as our world-beating powered products. So you can be sure the latest Yamaha line-ups of clothing and sports gear featured here have been very carefully chosen, to add a new dimension to your fun days out.

Why choose Yamaha?

RESIDUALS

Durability ensures high resale values

Residuals – value that lasts

Because Yamaha WaveRunner are recognised as one of the best watercrafts in the world everybody knows the quality of a product with the Yamaha name on it. Yamaha's enviable reputation and reliability will pay dividends when the time comes to upgrade or sell your WaveRunner as this has a very positive effect on the residual value. Your WaveRunner will be more attractive and should achieve a higher resale price especially if your ski has high hour usage. The difference

between selling your ski or not might be the manufacturer. Make sure you achieve the best return on your investment when selling your pride and joy by choosing a Yamaha WaveRunner. Buying Yamaha simply gives you a head start in the used market as everyone in the world knows the quality of a Yamaha.

PEDIGREE

Over 30 years of experience

Yamaha's first WaveRunner, the 500 (Marine Jet 500T) was launched in 1986 as the world's first sit-down, open stern production PWC – the model which created the PWC market we see today. Yamaha engineers share a boating passion with the many millions of Yamaha users worldwide, listening to what they have to say, and understanding how products are used in the real world.

Whether it is a tow surfer in the southern oceans or a family cruising local harbours, a Yamaha WaveRunner will be the reliable partner for their on water needs.

Quality – the best components

Yamaha have always strived to ensure the best quality components and raw materials are used in its WaveRunners. The unique YDC-30 alloy is a perfect example of how the very best materials are used in Yamaha WaveRunner engines. A combination of aluminium, silicon, magnesium and titanium provide industry-leading corrosion protection for significant components within the engine. Advanced manufacturing

techniques and precision engineering can be found in every detail of every engine. Whether you are five miles out to sea or five miles down the river having a quality WaveRunner engine will mean that you spend more time doing what you want to do and less time repairing and maintaining your engine. Yamaha delivers the quality that you can rely on.

Fast, efficient parts service

Yamaha is a global brand, so that means global back-up which is great, but what you also need is efficient local support and that's exactly what Yamaha is so good at - using global resource for practical local advantage. Genuine WaveRunner parts are centrally stocked in a giant European warehouse and can be delivered to the UK very quickly. In the harsh marine environment service and maintenance is critical so having an efficient and effective parts back-up means that any time off

the water while these tasks are performed is kept to a minimum. Important for leisure users and absolutely essential for every rescue and professional application; Yamaha's first class back-up is something which is ready and waiting.

When someone depends on you

Trust is an essential component of any marine operation. When operating at sea, regularly at any number of locations around the globe; then it is crucial to depend on your engine.

The RYA British Sailing Team use Yamaha Marine products for approaching 20,000 hours per year. Whether racing in Rio or training in Weymouth they rely on Yamaha's dependability and global support to keep their teams at the forefront of all competitions.

Every Yamaha Deserves The Best

To ensure that your Yamaha delivers optimum performance with long-term reliability, we recommend that you always use Yamaha Genuine Parts. Our high-quality spare parts comply with proven safety standards, fit perfectly and have a high resistance to wear - giving you peace of mind.

By using an Official Yamaha Dealer for servicing, you can be sure that all maintenance is carried out by highly skilled Yamaha Technicians using Genuine Parts and Yamalube products.

Our technicians are regularly trained at the Yamaha Technical Academy, giving them the expert knowledge and in-depth experience needed to keep your Yamaha in factory-fresh condition. For more detailed information please consult your local Yamaha dealer or visit our website: www.yamaha-motor.eu/uk/services

Invisible Engineering

Every Yamaha is engineered to run efficiently, effectively and reliably - and the best way to maintain your Yamaha's high performance and prolong component life is by using Yamalube products.

Oil is the lifeblood of internal combustion engines, and the Yamalube range includes fully and semi-synthetic oils for 2-strokes and 4-strokes, as well as special mineral and racing oils. Which means that Yamalube have the right lubricant to suit a wide range of climatic and usage conditions.

We also manufacture a range of care products that keep your pride and joy in tip-top condition. After all, if you look after your Yamaha, your Yamaha will look after you. Your local Yamaha dealer can advise you on the best Yamalube product for your Yamaha.

 Never drink or otherwise consume engine oil.
